

Hydraulic Elevators

Affordable and Reliable Passenger Elevators

Hydraulic elevators are a mainstay in today's commercial environment, generally in buildings up to six stories high. They don't require significant overhead hoisting machinery in comparison to traction systems.

Manufacturers

We are an authorized dealer for many leading hydraulic elevator suppliers and manufacturers. We recommend the use of non-proprietary equipment because it ensures that your elevator installation brings the best value to your building.

The Case for DC Elevator

Please see our case studies for examples of how we solved our clients' problems, and what they have to say about it. Contact us with questions about hydraulic elevators, discuss your building situation, and find out if this elevator type is right for you.

Features

Capacity: Up to 5,000 lbs
Travel Height: Up to 80 ft
Speed: 150 ft/min
