

## Residential Elevators

### Elevators for Private Residences

Residents and their visitors greatly appreciate the comfort and convenience an elevator adds to the dwelling experience. Concerns like safety and availability matter to them, too. Our residential elevator technology removes barriers in your way making the home you love more accessible, while also offering convenience for daily living.

### Manufacturers

We are an authorized dealer for many leading residential elevator suppliers and manufacturers. We recommend the use of non-proprietary equipment because it ensures that your elevator installation brings the best value to your building.

### The Case for DC Elevator

Please see our case studies for examples of how we solved our clients' problems, and what they have to say about it. Contact us with questions about residential elevators, discuss your building situation, and find out if this elevator type is right for you.

### Features

- Capacity: Up to 1,400 lbs
- Travel Height: Up to 7 stops & 35 ft travel
- Speed: 40 ft/min
- Drive: In-Line Gear / Winding Drum / Hydraulic System

### Benefits

- ▶ Manufactured and installed per current industry code standards
- ▶ Space-saving and cost-effective "thru-the-floor" models
- ▶ Flexible and space-saving machine-room-less (MRL) options
- ▶ Fully automatic models feature lifting mechanism and load capacity of small commercial elevators
- ▶ Safety features like two-way communication, flush mount doors, and an uninterruptible power supply (UPS)
- ▶ Optional levels of security technology through light curtains, three-speed sliding car doors, and individual access keys
- ▶ Superior technology adds comfort and function to your home
